kurtisthrasher.co.uk

Final year Computer Science Undergraduate at the University of Hull, with an interest in full-stack development. Industry experience gained alongside my degree, specifically within: agile methodologies and web technologies.

EXPERIENCE

Web Developer, Freelance

October 2019 - Current

- Currently supporting my studies with freelance development work for Strawberry, a northern Shopify Plus agency. My work includes creating e-commerce websites for clients with semantic HTML, Liquid and SCSS.

Web Developer Intern, Strawberry

June 2019 - September 2019

- During this internship, I worked with e-commerce platforms (predominantly Shopify Plus). Typically, I was tasked with fixing bugs, creating new and additional templates for clients such as Barry M and Rio Health, as well as creating interactivity using JavaScript (ES6) and Liquid markup language.

Course Instructor, Code First: Girls

February 2019 - May 2019

- This role saw me volunteer to help increase the number of women in technological roles by teaching them new skills. This course helped women break into digital industries, teaching them how to code with a multitude of languages, including designing and coding a website from scratch.

EDUCATION

BSc Computer Science, University of Hull

2017 - Present (Graduate July 2020)

- Predicted First Class Honours degree.
- Experience with object-oriented programming, system design, agile methodologies, embedded systems, distributed systems and web technologies.
